

ABU SALEH MD. TAMZID

Senior WordPress & WooCommerce Developer | Website Management & Support Specialist

Dhaka, Bangladesh - tamzidsaleh@gmail.com - tamzid.net - WhatsApp +8801515244282

SUMMARY

Senior WordPress and WooCommerce developer with 8+ years building, supporting, and maintaining 300+ client websites for startups and small businesses, working directly and independently as an embedded remote developer on each engagement. Specialized in page-builder client site delivery (Elementor, Divi, Bricks), WooCommerce/Dokan marketplace builds, ongoing website support and maintenance, performance optimization, and security hardening. Comfortable owning client-facing tickets, SLAs, and multi-site portfolios without supervision - built on a background of running full engagements solo from day one.

CORE SKILLS

- Client Website Delivery: WordPress, WooCommerce, Dokan, WCFM, child-theme customization, Figma-to-WordPress builds
- Page Builders: Elementor, Divi, Bricks Builder, WPBakery, Avada, Gutenberg
- Website Support & Maintenance: MainWP, ManageWP, ticket-based support, uptime monitoring, backups & migration, plugin/core updates, troubleshooting
- Security: malware removal & cleanup, hardening, firewall & security-plugin configuration
- Performance: Core Web Vitals, caching, CDN, files, image & database optimization
- Infrastructure: cPanel, WHM, DNS, SSL, server administration, email/SMTP
- Client Communication: written & spoken English, ticket/SLA-based client support

PROFESSIONAL EXPERIENCE

Freelance WordPress & WooCommerce Developer | Remote, Global Clients

2017 – Present

- Developed and maintained 300+ WordPress/WooCommerce websites for startups and small businesses across the US, UK, Canada, Australia, New Zealand, UAE, and Europe, engaged directly as the sole developer on each project
- Built 100+ Dokan/WCFM multivendor marketplace sites with custom vendor workflows and third-party integrations for international clients
- Delivered client sites end-to-end using WPBakery, Elementor, Divi, Beaver and Bricks Builder - translating Figma designs into responsive, production-ready pages
- Provided support and maintenance for 50+ websites, including ongoing developments, customization, updates, security, backups, uptime monitoring, and troubleshooting
- Resolved malware and security incidents on 40+ compromised sites, restoring uptime and hardening against repeat attacks
- Improved Core Web Vitals and page load speed by an average of 50%, consistently bringing client sites to 1–2 second load times and 90+ PageSpeed Insights scores through caching, image, and database optimization

KEY PROJECTS

Statecrafted.co — US-based Dokan multivendor marketplace for independent makers, currently in seller-onboarding beta — built the vendor/customer experience and third-party integrations.

Bushpop.com.au — Australia-based online fashion resale marketplace — built the Dokan multivendor storefront.

Baahy.com — Libya-based multilingual Dokan multivendor marketplace — delivered multilingual, multi-vendor storefront.

Farmabulk.com — Spain-based wholesale marketplace — built a customized bulk-ordering workflow on WooCommerce.

Cookimix.shop — French-market WooCommerce store for Thermomix-compatible kitchen accessories — built the multilingual (7-language) storefront and product catalog.

Bikebarta.com — Motorcycle, scooter & EV listing and review platform for the Bangladesh market — built the site architecture, SEO strategy, and content system.
